

CompanyCam

Elevator Pitches

50 Word: CompanyCam is a photo-based solution created for contractors, by contractors. Users can take unlimited photos—which are location and time stamped, sent to the cloud, and stored securely. Every photo is organized by project and instantly available to your team, allowing you to see what's going on anytime, anywhere.

100 Word: CompanyCam is a photo-based solution created for contractors, by contractors. Users can take unlimited photos—which are location and time stamped, sent to the cloud, and stored securely. Every photo is organized by project and instantly available to your team, allowing you to see what's going on anytime, anywhere. Photos can be annotated with drawings, arrows, comments, tags, and voice notes and users can create project timelines, photo galleries, reports, and transformation photos through the app. Sharing photos with customers and insurance adjusters has never been easier, and keeping your entire process organized has never been simpler.

200 Word: CompanyCam is a photo-based solution created for contractors, by contractors. Users can take unlimited photos—which are location and time stamped, sent to the cloud, and stored securely. Every photo is organized by project and instantly available to your team, allowing you to see what's going on anytime, anywhere. Photos can be annotated with drawings, arrows, comments, tags, and voice notes and users can create project timelines, photo galleries, reports, and transformation photos through the app. Sharing photos with customers and insurance adjusters has never been easier, and keeping your entire process organized has never been simpler. If you ever need to share photos with partners or clients the app boasts two incredibly useful features: galleries, where you share a collection of photos and reports, where you share a series of photos and notes. You don't have to download, rename or email the photos - you simply select and send. In addition to CompanyCam's user-friendly functionality, numerous integrations have made it incredibly simple to implement into users' current project management processes. With industry leaders like JobProgress, Drone Deploy, HOVER, SuccessWare 21, JobNimbus, and more, CompanyCam provides users an end-to-end photo and project management solution.
